

The Illinois Department of Commerce and Economic Opportunity (DCEO) recognized the winners of the 2013 Illinois Coal Calendar contest during an award ceremony held at the Executive Mansion on May 11, 2012. Twenty-five students from across Illinois created posters and essays to highlight the value of coal resources to the state. The winning posters and essays will be featured in the upcoming 2013 Illinois Coal Calendar, which will be used by DCEO as an education and public awareness tool showing how coal and coal-based products play a fundamental role in the economic prosperity of the state.

The contest for the 24th edition of the Coal Calendar attracted posters and essays from nearly

1,000 students in grades five through eight whose teachers incorporated lessons on the value of coal resources to Illinois, the geology and science of coal and how coal is mined and used. Participants represented schools from throughout Illinois, ranging from Orland Park in the Chicago area, to Galatia in southern Illinois. The entries were judged by panels made up of artists, teachers, personnel from Illinois coal producers and the staff of the Illinois Department of Natural Resources.

“The entries we received for this year’s Coal Calendar contest reflect great talent and hard work by all of the students, which made the decision to select finalists difficult,” DCEO Acting Director David Vaught said. “In addition to their experience in learning about Illinois coal, the students also helped us get the word out that Illinois coal is a valuable asset to the state. This effort is part of our ongoing work to promote the broader use of Illinois coal and further the advancement of clean-coal technology as an integral part of the nation’s future mix of energy sources.”

The top-ranked poster and essay earned their young artist and author \$100 each and the other poster and essay winners each were awarded \$50 from the Illinois Coal Association. The overall winning poster entry will be featured on the cover of the calendar and the overall winning essay entry will have special recognition in the calendar.

The calendar’s cover features a colorful drawing entitled “Illinois Coal: the Power Starts Here,” by Hanna Jones, at 8th grader at Sesser-Valier Junior High School in Franklin County. Her

classmate, Dakota Miller, won best overall essay for his work, titled, “Coal Mining.” Twelve other posters, with clever titles such as “Life’s a Lump of Coal...Dig It!”, “Illinois Coal Lighting the Way for the U.S.A.” and “Coal Is the Key,” highlight each month. The 12 essays are in the center section of the calendar.

Copies of the 2013 Coal Calendar will be available this fall. To order a calendar, write to Linda Dunbar at DCEO’s Office of Coal Development, 500 E. Monroe Street, Springfield, IL 62701 or call 217-558-2648.
